

How to Set Up Apple Pay

To set up Apple Pay, open the Wallet app on your iPhone, tap the "+" icon, and choose "Debit or Credit Card." You can then either scan your card with the camera or manually enter the details. Verify your card with your bank, and follow the on-screen instructions to complete the setup.

Here's a more detailed step-by-step guide:

- Open the Wallet App: Locate and open the Wallet app on your iPhone.
- Add a Card: Tap the "+" icon (Add Card button) in the upper right corner.
- Choose Card Type: Select "Debit or Credit Card".
- Add Card Details:
 - Scan: You can scan your card using your iPhone's camera by positioning the card within the frame.
 - Manual Entry: Alternatively, tap "Enter Card Details Manually" and input the card number, expiration date, and security code.
- Verify Your Card:
 - Your bank or card issuer may require verification to ensure your card is valid for Apple Pay.
 - This verification can involve receiving a code via text or email, or calling your bank.
- Complete Setup: Follow the on-screen instructions to finalize the setup process.
